USING AN EXISTING RING TO FIND THE RIGHT SIZE

Before printing

- Ensure that there are no scaling options selected
- Print on standard A4 paper

Once printed

1. Select an existing ring that fits your preferred finger.
2. Place the ring over the circles below until the inside circumference of the ring matches a specific circle.
3. If your ring falls in between two sizes, consider the width of the band. A wider band may require a slightly larger ring size.
